Chapter 1

4 New England population and land consumption data: U.S. Census Bureau, 2000 Census; Natural Resources Conservation Service, Natural Resources Inventory, Percent Change in Developed Land Area, 1982–1997.

4 Vermont population and land consumption data: Vermont Forum on Sprawl, *Exploring Sprawl*, no. 6 (Burlington, Vt.: 1999).

4 Massachusetts population data: Metropolitan Area Planning Council, www.mapc.org.

4 Rhode Island's rapidly growing motor vehicle registrations: H.C. Planning Consultants, Inc., *The Costs of Suburban Sprawl and Urban Decay in Rhode Island* (Providence: Grow Smart Rhode Island, 1999), Executive Summary p. 4.

4 Vermont's increasing vehicle miles traveled: Vermont Agency of Transportation.

5 Economic costs of sprawl: Jackson, Kenneth T., *Crabgrass Frontier: The Suburbanization of the United States* (New York: Oxford University Press, 1985); H.C. Planning Consultants, Inc., *The Costs of Suburban Sprawl and Urban Decay in Rhode Island* (Providence: Grow Smart Rhode Island, 1999); Transportation Research Board, *The Costs of Sprawl—Revisited*, report 39 (Washington, D.C.: 1998); F. Kaid Benfield, Matthew D. Raimi and Donald D.T. Chen, *Once There Were Greenfields: How Urban Sprawl is Undermining America's Environment, Economy and Social Fabric* (New York: Natural Resources Defense Council, Surface Transportation Policy Project, 1999); Conservation Law Foundation, *Road Kill: How Solo Driving Runs Down the Economy* (Boston, 1994). Vermont Forum on Sprawl, "The Causes and Effects of Sprawl in Vermont Municipalities," *Exploring Sprawl*, no. 3 (Burlington, Vt.: 1999); Vermont Forum on Sprawl, "Economic, Social and Land Use Trends Related to Sprawl in Vermont," *Exploring Sprawl*, no. 6. (Burlington, Vt.:1999).

5 Environmental costs of sprawl: F. Kaid Benfield, Matthew D. Raimi and Donald D.T. Chen, *Once There Were Greenfields: How Urban Sprawl is Undermining America's Environment, Economy and Social Fabric* (New York: Natural Resources Defense Council, Surface Transportation Policy Project, 1999); Conservation Law Foundation, *City Routes, City Rights: Building Livable Neighborhoods and Environmental Justice by Fixing Transportation* (Boston, 1998); Conservation Law Foundation, *The Smart Growth-Climate Change Connection*, www.tlcnetwork.org (Boston, 2000).

6 Social costs of sprawl: Robert D. Putnam, *Bowling Alone: The Collapse and Revival of American Community* (New York: Simon & Schuster, 2000); James Howard Kunstler, *The Geography of Nowhere* (New York: Simon and Schuster, 1993); James Howard Kunstler, *Home from Nowhere* (New York: Simon and Schuster, 1996); Vermont Forum on Sprawl, "Economic, Social and Land Use Trends Related to Sprawl in Vermont," *Exploring Sprawl*, no. 6. (Burlington, Vt.: 1999).

The bold numbers at the beginning of each entry are page numbers. On the pages cited the referenced topics are addressed.

6 New England costs of community services studies: American Farmland Trust: Farmland Information Library, Technical Assistance, *Cost of Community Services Studies Fact Sheet*, available at www.farmlandinfo.org/ficltas/tafs-cocs.html.

6 Costs to municipalities of compact development versus sprawl: James E. Duncan et al., *The Search for Efficient Urban Growth Patterns* (Tallahassee: Florida Department of Community Affairs, 1989); James E. Frank, *The Costs of Alternative Development Patterns: A Review of the Literature* (Washington, D.C.: Urban Land Institute, 1989); Robert W. Burchell & David Listokin, *Land, Infrastructure, Housing Costs, and Fiscal Impacts Associated With Growth: The Literature on the Impacts of Traditional Versus Managed Growth* (paper prepared for Alternatives to Sprawl conference, Washington, D.C., Brookings Institution, 1995); Robert W. Burchell, et al., *Impact Assessment of the New Jersey Interim State Development and Redevelopment Plan, Report II: Research Findings* (New Brunswick, NJ: Rutgers University and New Jersey Office of State Planning, 1992); Transportation Research Board, *The Costs of Sprawl—Revisited*, report 39 (Washington, D.C.: 1998); The Champlain Initiative, *The Case for a Healthy Community: A History of Sprawl in Chittenden County* (Burlington, VT: 1999).

9 Maine marketing survey: Maine State Planning Office, *Markets for Traditional Neighborhoods* (Augusta, ME: 1999).

9 Real estate trends analysis: *Emerging Trends in Real Estate 2000* (New York: Lend Lease Real Estate Investments, Inc. and Pricewaterhouse Coopers LLP, 1999).

9 Market forces: Melissa Herron, “Brave New World,” *Builder Magazine*, July 1998, p. 110; Robert Putnam, *Bowling Alone, The Collapse and Revival of American Community* (New York, NY: Touchstone Books, 2001). National Association of Home Builders, *Smart*

Growth, Building Better Places to Live, Work and Play, (Washington, D.C.: 1999), p. 16.

9 Less than twenty percent of U.S. households have school aged children: Bureau of the Census, *America’s Families and Living Arrangements*, report, <http://www.census.gov/prod/2001pubs/p20-537.pdf> (Washington D.C., 2000).

9 Aging of America: Bureau of the Census, *Sixty-Five Plus in the United States*, statistical brief, www.census.gov/socdemo/www/agebrief.html (Washington D.C., 2000).

12-13 Community visioning: Michael Chandler, "Putting Vision in Our Plans," *Planning Commissioners Journal*, vol. 21, Winter 1996 or vol. 22 Spring 1996, see www.plannersweb.com/wfiles/w382.htm; Michael Chandler, "The 21st Century Comprehensive Plan," *Planning Commissioners Journal*, vol. 31, Summer 1998, see www.plannersweb.com/wfiles/w316.html; Walter Cudnohufsky, "Dreaming the Future: Community Vision Planning," *Planning Commissioners Journal*, vol. 11, Summer 1993, see www.plannersweb.com/wfiles/w505.html. Anton Nelessen, Visions for a New American Dream, American Planning Association, 1995. Marvin Weisbord and Sandra Janoff, *Future Search—An Action Guide to Finding Common Ground in Organizations and Communities* (Barrett-Koehler, 2000); see also www.futuresearch.net.

12-13 Planning manuals: Vermont Agency of Commerce & Community Development, *Planning Manual for Vermont Municipalities* (Montpelier, Vt.: 2000); Edward McMahon & Sara Hollberg, *Better Models for Development in the Shenandoah Valley* (Arlington and Staunton, VA: The Conservation Fund and Valley Conservation Council, 1999); Vermont Forum on Sprawl, *Vermont Smart Growth Scorecard* (Burlington, Vt.: 2000); Regional Plan Association & Connecticut Land Use Coalition, *Building Livable Communities: A Community Design Handbook for Connecticut Towns* (New York, NY: 1997), see also www.rpa.org/publications/blc-design.html.

12-13 Planning strategies: Vermont Forum on Sprawl, *Solutions to Sprawl Matrix* (Burlington, Vt.: 1999), see also www.vtsprawl.org/SolutionsMatrix/Introduction.htm; Center for Livable Communities, *Building Livable Communities* (Sacramento, Calif.: Local Government Commission, 1995); Sierra Business Council, *Planning for Prosperity*

(Truckee, Calif.: 1997); Redman/Johnston Associates, *Beyond Sprawl: Land Management Techniques to Protect the Chesapeake Bay—A Handbook for Local Governments* (Annapolis, MD: United States Environmental Protection Agency Chesapeake Bay Program, 1997); Andres Duany, Elizabeth Plater-Zyberk, & Jeff Speck, *Suburban Nation, The Rise of Sprawl and the Decline of the American Dream* (San Francisco: North Point Press, 2000).

13-14 Public investment strategies: Elizabeth Humstone & Julie Campoli, *Access Management Guidebook* (St. Albans, Vt.: Northwest Regional Planning Commission, 1996); "Public Buildings," *Planning Commissioners Journal*, no. 41 (2001), see also www.plannersweb.org.

14-15 Taxes and fees: Brenda Hausauer, *Tax Reform that Agrees with Vermont* (Montpelier, VT: Vermont Fair Tax Coalition, 1999); American Farmland Trust, *Saving American Farmland: What Works* (Washington, D.C.: 1997).

16 Public transportation, bikeways, and pedestrian access: Conservation Law Foundation, *Take Back Your Streets: How to Protect Communities from Asphalt and Traffic* (Boston, 1998); Conservation Law Foundation, *City Routes, City Rights: Building Livable Neighborhoods and Environmental Justice by Live Fixing Transportation* (Boston, 1998). Commission on Transportation Investment, "Final Report," State of Maryland, 1999; Regional Plan Association, *Building Transit-Friendly Communities: A Design and Development Strategy for the Tri-State Metropolitan Region* (New York: 1997); see also www.rpa.org/mobility/tfcimpact.html.

16-17 Downtown and village development: Vermont Forum on Sprawl, *Growing Smarter – Best Development Practices for Residential, Commercial and Industrial Development* (Burlington, Vt.: 2001); Vermont Forum on Sprawl, *Making Downtowns and Village Centers*

More Attractive for Development, A Conference Report (Burlington, Vt.: 1998), p. 6.; National Main Street Center of the National Trust for Historic Preservation, www.mainst.org; Preservation Trust of Vermont, *Vibrant Town Centers and Downtowns: Developing Small-scale, Locally owned, Downtown Stores that Serve the Community* (Burlington, Vt.: 2000).

17-18 Open space protection strategies: American Farmland Trust, *Saving America's Farmland: What Works* (Northampton, MA: 1997); Randall Arendt, et al., *Rural by Design: Maintaining Small Town Character* (Chicago: Planners Press/APA, 1999); Vermont Forum on Sprawl, *Growing Smarter—Best Development Practices for Residential, Commercial and Industrial Development* (Burlington, Vt.: 2001).

19-20 State smart growth policies and incentives: American Planning Association, *Growing Smart Legislative Guidebook* (Chicago: Planner Press/APA, 1997).

Chapter 3

24 Pedestrian-friendly walking distances: Randall Arendt, *Crossroads, Hamlet, Village, Town: Design Characteristics of Traditional Neighborhoods, Old and New* (Chicago: American Planning Association, 1999), p. 108. Arendt explains: "a distance between 1,350 and 1,500 feet has been found to be the maximum comfortable walking distance for many Americans, in terms of walking from homes to shops. This distance usually requires about five minutes to cover on foot." Belmont, North Carolina adopted a regulation which allows for compact, mixed-use, pedestrian scaled communities, defining such neighborhoods as being "limited to an area which can be traversed in a 10 to 15 minute walk." *Regulations & Subdivision Ordinances*, City of Belmont, North Carolina (August 7, 1995), ch. 2.

The bold numbers at the beginning of each entry are page numbers. On the pages cited the referenced topics are addressed.

24 Common characteristics of “town centers” or “downtowns”: Humstone Squires Associates et al., *Town Center Master Plan*, Town of Essex, Vt.: (April 1991), sec. 2.1.

24–25 Data regarding aging U.S. population: Deborah A. Howe, “Creating Vital Communities: Planning for Our Aging Society,” *Planning Commissioners Journal*, vol. 7, Nov./Dec. 1992.

25 Lawrence, Kansas litigation: *Jacobs v. City of Lawrence*, 715 F. Supp. 1000 (D.Kan. 1989), affirmed by *Jacobs v. City of Lawrence*, 927 F.2d 1111 (10th Cir. 1991).

27 Visually defining town centers by aesthetic, non-regulatory means: Jennifer T. Moulton, *Ten Steps to a Living Downtown* (Washington, D.C.: The Brookings Institution, 1999), see also www.brookings.edu/urban; Suzanne Rhees, “Gateways: Creating Civic Identity,” *Planning Commissioners Journal*, vol. 21, Winter 1996.

28 Barriers making the cost of infill development higher than the cost of developing rural or suburban land: Vermont Forum on Sprawl, *Exploring Sprawl: The Costs of Development—Downtown vs. Open Spaces* (Burlington, Vt.: 1999); Center for Livable Communities, *Building Livable Communities: A Policymaker’s Guide to Infill Development* (Sacramento, CA: 1995).

28 Non-regulatory means for overcoming barriers to infill development: Center for Livable Communities, *Building Livable Communities: A Policymaker’s Guide to Infill Development* (Sacramento, CA: 1995). (Discussing solutions such as government entities assuming or sharing the cost of infrastructure improvements for infill projects; assisting with project financing; providing in-kind assistance; and using public investments in infrastructure and private amenities to make targeted areas more desirable for infill development.)

29 Randall Arendt quotation: Randall Arendt, *Crossroads, Hamlet, Village, Town: Design Characteristics of Traditional Neighborhoods, Old and New* (Chicago: American Planning Association, 1999), p. 89.

30 Reid Ewing quotation: Reid Ewing, *Pedestrian- and Transit-Friendly Design: A Primer for Smart Growth* (Ft. Lauderdale, FL: FAU/FIU Joint Center for Environmental and Urban Problems and the Florida Department of Transportation, 1996), p. 14.

32 Satellite parking, and off-street parking funds: Cape Cod Commission: Model Bylaws and Regulations, Village-Style Development Bylaw/Ordinance for Towns in Barnstable County, Massachusetts, 1998.

33 Importance of streamlining permitting process for smaller development projects: Center for Livable Communities, *Building Livable Communities: A Policymaker’s Guide to Infill Development* (Sacramento, CA: 1995).

33 Benefits of by-right streamlining regulations: Vermont Forum on Sprawl, *Growing Smarter—Making Smart Growth Work* (Burlington, Vt.: 2001); Center for Livable Communities, *Building Livable Communities: A Policymaker’s Guide to Infill Development* (Sacramento, CA: 1995).

33 Davis Square’s use of transit-oriented development: Conservation Law Foundation, *City Routes, City Rights: Building Livable Neighborhoods and Environmental Justice by Fixing Transportation* (Boston, 1998), ch. 8 (also providing other examples of transit-oriented development).

33–34 Pedestrian-friendly layout of streets, crosswalks, sidewalks, and street trees: See generally Reid Ewing, *Pedestrian- and Transit-Friendly Design: A Primer for Smart Growth* (Washington, DC: Smart Growth Network, 1999); Conservation Law Foundation, *City Routes, City Rights: Building Livable Neighborhoods and Environmental Justice by Fixing Transportation* (Boston, 1998), ch. 5.

34 Orienting buildings to the streetscape: Reid Ewing, *Pedestrian- and Transit-Friendly Design: A Primer for Smart Growth* (Ft. Lauderdale, FL: FAU/FIU Joint Center for Environmental and Urban Problems and the Florida Department of Transportation, 1996), p.10.

General Resources

Randall Arendt, *Crossroads, Hamlet, Village, Town: Design Characteristics of Traditional Neighborhoods, Old and New* (Chicago: American Planning Association, 1999).

Chapter 4

38 Farmland and forest loss in New Hampshire: Dan Sundquist & Michael Stevens, *New Hampshire's Changing Landscape, Population Growth, Land Use Conversion and Resource Fragmentation in the Granite State* (Concord, NH: Society for the Protection of New Hampshire Forests and the New Hampshire Chapter of the Nature Conservancy, 1999), see also www.spnhf.org.

38 New England developed land and prime farmland data: U.S. Department of Agriculture, *Natural Resources Inventory*, December 2000, Tables 2 and 9.

39 Relative water and air pollution from varying land uses data: Lenore S. Budd & Donald W. Meals, *Lake Champlain Nonpoint Source Pollution Assessment* (Grand Isle, VT: Lake Champlain Basin Program, Feb. 1994), p. 101. A study on phosphorous pollution in Lake Champlain in Vermont found that although farms are the largest overall contributors of phosphorous to Lake Champlain, developed lands, which comprise just 3% of the land base, contribute about 18% of the non-point source phosphorus to the Lake.

39 Affects of forests on global warming data: Robert Smith & Thomas Smith, *Elements of Ecology* (San Francisco, CA: Benjamin Cummings, 1998), p. 367.

42 Planning within Cape Cod's Agricultural Resource Districts data: Cape Cod Commission Regional Policy Plan (Barnstable, Mass.: 1996), p. 107.

43 Maine's Agricultural Complaint Response Fund data: 17 M.R.S.A. § 2805.

43 Carroll County Maryland disclosure and dispute resolution data: Tom Daniels & Deborah Bowers, *Holding our Ground* (Washington, D.C.: Island Press, 1997), p. 242.

43 Maine prohibition on inconsistent development within 100 feet of farm: 7 M.R.S.A. § 56.

44 Massachusetts and New Hampshire farmstand exemption data: M.G.L.A. ch.40A, § 3 (a majority of the products sold at the farm stand must be produced on the farm) NHRSA § 21:34-a (35 % of the product sales must be produced on the farm). See also NHRSA ch. 40A, § 674:32-b(b). (New establishments or expansions may be regulated to address certain impacts.)

45 Common zoning lot size data: Tom Daniels & Deborah Bowers, *Holding our Ground* (Washington, D.C.: Island Press, 1997), pp. 114–117.

45–46 Variations on the buffer concept example: Lancaster PA Agricultural District Zoning Ordinance, Article IV, sec. 405.1.

46 Amherst exception for farms from anti-noise ordinance: "Farmers get exemption from noise rule," *Boston Globe*, 2 November 2000.

48 Need for regulatory and non-regulatory strategies: Jerry Paulson, "Protecting Farmland on the Edge: What Policies and Programs Work?" (DeKalb, IL: American Farmland Trust Center for Agriculture in the Environment, Working Paper Series, 1997); Jeanne S. White, "Beating Plowshares into Townhomes: The Loss of Farmland and Strategies for Slowing its Conversion to Nonagricultural Uses," *Environmental Law* 28 (Spring):113, Portland, OR: Northwestern School of Law of Lewis and Clark College, 1998.

Be Part of the Solution

Join CLF today!

Founded in 1966, the Conservation Law Foundation is a nonprofit, member-supported organization that works to solve the environmental problems that threaten the people, natural resources, and communities of New England. CLF's advocates use law, economics, and science to design and implement strategies that conserve natural resources, protect public health, and promote vital communities in our region.

Yes! I want to help CLF protect New England's environment and communities.

 Fax (617) 350-4030

For more information on CLF, please call (800) 370-0697 e-mail members@clf.org

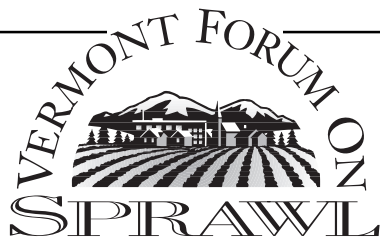

or log on to www.CLF.org

Your contribution is tax-deductible to the extent provided by law. Thank You!

I would like my donation to support CLF's work:

- Across New England
or in

- Maine
 Massachusetts
 New Hampshire
 Rhode Island
 Vermont

The mission of the Vermont Forum on Sprawl is to preserve Vermont's unique working landscape and quality of life while encouraging economic development in community centers, through:

1. research and communications,
2. public policy development,
3. community tools and demonstration projects,
4. building creative and diverse partnerships.

WHY DO WE NEED A VERMONT FORUM ON SPRAWL?

- ✓ To discourage wasteful land consumption.
- ✓ To provide more transportation choices.
- ✓ To minimize public costs of development.
- ✓ To conserve valuable farmland and forestland.
- ✓ To promote downtowns and village centers.
- ✓ To provide diverse housing choices.

...and to protect the unique character of Vermont...compact settlements separated by rural countryside.

I would like to help preserve Vermont's rural landscape and encourage Smart Growth development with a tax-deductible donation of:

- Smart Growth Innovator \$1000
 Community Builder 500
 Coalition Advocate 100
 Planning Promoter 50
 Sprawl Buster 30
 Other \$ _____

Please make checks payable to the Vermont Forum on Sprawl.

All donations of \$30 or greater will receive 20% off Community Rules.
